Game Developer Profile

Unreal Engine 5-focused Game Developer and Environment Artist specializing in real-time world building, cinematic storytelling, and immersive visual design. Passionate about crafting environments that evoke emotion using lighting, materials, and procedural workflows.

Core Skills

Game Development: Unreal Engine 5, Real-Time Rendering, Cinematics

Environment Design: Lighting, Composition, Atmosphere, Material Blending

Technical: Basic Blueprints, Rendering Pipelines, Procedural Workflows

Web: HTML, CSS, JavaScript, React (Basics)

Tools: Unreal Engine, Blender (Learning), Figma, Illustrator

Strengths: Visual Storytelling, Experimentation, Rapid Learning, Creative Problem Solving

Unreal Engine 5 Projects

Procedural Growth Animation

- Created a real-time organic growth animation over a classical sculpture using material blending techniques.
- Explored procedural animation workflows to simulate natural transformation.
- Focused on storytelling through visual contrast between static and evolving elements.

Desert Oasis Environment

- Designed a high-contrast desert scene to study sunlight behavior, shadows, and color temperature.
- Balanced warm sand tones with reflective water elements for visual depth.
- Focused on environmental storytelling through minimal elements.

Cinematic Mountain Lake

- Built an immersive natural environment emphasizing reflections, lighting, and depth layering.
- Crafted a calm, atmospheric scene using foreground elements and realistic lighting.
- Enhanced realism through composition and environmental balance.

Cinematic Render Pipeline

- Successfully executed full cinematic workflow from scene setup to rendering and post-processing.
- Converted image sequences into a final cinematic video output.
- Gained hands-on experience with real-time rendering pipelines.

Game UX & Interactive Projects

GTA VI Concept Experience

- Designed a cinematic promotional experience inspired by AAA game launches.
- Used bold layouts and interactive storytelling elements.

Digital Alchemy Portfolio

- Built an immersive portfolio with game-inspired navigation.
- Focused on cinematic UX instead of traditional scrolling.

Professional Experience

Wipro Limited

June 2024 – Feb 2026

Junior UX Designer

- Worked on complex digital systems, improving usability and interaction flows.
- Collaborated with developers, gaining exposure to real-world product development pipelines.
- Strengthened understanding of user behavior, interaction logic, and system design.

Learning & Certifications

- Unreal Engine 5 – Environment Art for 3D Video Games (Udemy)
- Complete React & NextJS Course with AI Projects (Udemy)
- The Complete AI Guide: Generative AI & ChatGPT (Udemy)
- Google UX Design Professional Certificate (Coursera)

Education

Bachelor of Computer Applications

2020 – 2023

Graphic Era University
